

Alltec Screens Tabletop Screens

The Tabletop projector screen is the smallest, most compact projector screen! Perfect for on-the-go presentations, small conference rooms, or even video gaming. The Tabletop screen is small enough to easily fit a media console or conference table for a quick mobile presentation.

Design and Construction

Designed for ultra-easy transport and storage, this screen sets up in seconds with the built-in pull up mechanism. Simply extend the screen to start using it and collapse it back in to its case when you're done. The Tabletop projector screen features our aluminum case that is both strong and lightweight, weighing less than 9 pounds! The integrated handle and fold-out feet are constructed of strong durable plastic that are designed to handle the wear and tear of regular travel.

Key Features

- Alltec Tabletop projector screens range from 30" to 50" diagonal sizes
- Fast and easy setup, on any tabletop or other flat surface
- Simple pull-up mechanism with support bar
- Heavy-duty, yet lightweight black aluminum case
- Attached carrying handle makes transport and storage easier than ever
- Perfect for 4K Ultra HD and HD Resolutions
- 1" black border on all sides of the viewing surface to absorb excess light
- Available in HDTV (16:9) and NTSC Video (4:3) aspect ratios
- Matte white projection screen fabric with black backing, 1.0 gain and 120° viewing angle
- 1 year warranty

Matte White Fabric

Viewing Angle: 120° / Gain: 1.0

Matte White – The most versatile screen fabric surface and the premier choice when ambient light is controllable. The Matte White projector screen fabric evenly distributes light over a wide viewing area, while colors remain bright and life-like, with no shifts in hue or contrast. The 120° viewing angle allows for a very wide audience seating arrangement. With an even Gain of 1.0, this projector screen fabric allows for no loss of brightness from the projection source, as long as ambient light is controlled. A black backing to the fabric is also added to impede any light penetration from behind the projected surface.

The matte white screen surface can be easily and safely cleaned with mild soap and water. Do not use any other stronger chemical cleaners, as this may negatively affect the projection surface. The fabric surface is also flame retardant and mildew resistant.

Specifications and Dimensions

Model Number	Diagonal	View Width	View Height	Case Size (LxWxH)	Package Size (LxWxH) & Weight	Case Color	Aspect Ratio	Screen Material
