

The Baronet offers an excellent, lower-cost alternative to hardwired motorized screens. No electrician is required with the Baronet. Just install the motorized screen and plug it in. It's that simple. Its 10' (305cm) power cord plugs into the nearest wall outlet. Attractive case fits in most spaces and houses the screen with a quiet, trouble-free motor-in-roller.

Endcaps form universal mounting brackets making installation easy whether it is mounted on a wall, suspended or recessed above the ceiling. Both brackets extend 1/2" (13 mm) above the case. The Baronet's pentagonal-shaped steel case has a scratch-resistant white polyester finish.

Screen Type

Low cost motorized, wall-mounted projection screen

Viewing Surfaces
